Engineer Heffernan Sees a Suspicious Look ing Individual Assisted Into Fotheringham's Car.

St. Louis, Nov. 10 -The only thing new in the express robbery is the statement of Engineer Heffernan, of the Wabash road, but he saw a stranger get into Messenger Fotheringham's train as it left the union lepot here on the night of the robbery, and that the stranger was assisted into th by some one on the inside. It was on this statetment made before the grand jury that by some one on the inside. It was on this statement made before the grand jury that the indictment against Fotheringham was found. Heffernan's story is as follows: "I was in the union depot in the evening of October 25 oiling my engine. My time to start was 5/25 p. m., but just as I was shout to get away I noticed that the Frisco train was across the main track. Of course I could not move until the Frisco got out of my way. The express car was almost directly opposite my cab window, and I noticed that the door of the car was sla ding open. The messenter and his beiper were inside busy with their duties. It was nearly time for the Frisco train to start, and Dwyer wurg himself off the car and went away. A minute or two laters man came along with a valise in his hand and stopped directly under the electric light and within a few feet of the e-gine. He acswered Fotheringham's description of the robber as far as I remember, except that he was a couple of inches or so shorter. He wore his hat well forward over his face, and I could not make out his features very clearly. He saked me which was the Frisco train, and I pointed it out to him. It was just moving away, and he ran along side of it until he reached the express car, the door of which was still standing open (a very unusual thing, by the way), threw his valise inside, reached up his hand side of it until he reached the express car, the door of which was still standing open (a very unusual thing, by the way), threw his valise inside, reached up his hand and was pulled up through the door into the car. He could not have juniped in without assistance, especially with the train in motion, and I believe Fotheringham helped him." Thomas Dwyer's testimony corroborated the engineer's story. "Jim Cummings." who Fotheringham says, committed the robbery, is carrying on rather a voluminous crress, ondence for one in his position. He first wrote o Frank Jaines, the ex-bandii, then to the editor of a newspaper, and now to Fotheringham's riother, inclosing in the letter 500, which he suggests may be of use in clearing her son of the snaplcion now resting upon him.
